

ANNUAL REPORT 2023

DEVELOPMENT & EXPANSION

DEVELOPMENT & EXPANSION

LETTER FROM THE CHIEF EXECUTIVE OFFICER

Dear Friends,

During 2023, Ser Familia continued the unmitigated growth that we have experienced during the last decade:

- We served a total of 9,896 individuals, that is 21% more when compared to 2022
- Positively impacted 1,517 children and youth, a record number for our organization
- Provided services to clients coming from 35 counties in Georgia
- 44.5% more households received case management services compared to 2022
- Completed 41% more mental health counseling sessions when compared to prior year
- We provided 72% more psychiatric services when compared to 2022
- Ser Familia is currently delivering more than double the number of group programs (i.e. Triple P, SPARCS, Healthy Relationships, etc.) when compared to the year 2019.

This year was dedicated to the strengthening of our internal processes, reevaluating services and increasing capacity to ensure that we could meet the tremendous need in our Latino community for programs and services to improve personal and family emotional wellbeing.

In order to continue to deliver services with the same quality and ensure we get consistent positive outcomes every time, we invested \$40,000+ to train a dozen new parenting facilitators; created 3 new positions of Program Specialists (one for each of our regions); evaluated all the new programs that the agency started during the COVID-19 Pandemic to ensure that they fit long-term in our services model and reviewed all of our policies and procedures.

During the summer of 2022, we launched the Fair Oaks Project. Our first official event was a community health and resources fair that brought 844 participants! We had been planning this effort for more that 1 year in partnership with the Community Foundation for Greater Atlanta and some local stakeholders. During this year, the expertise of an urban planning consulting firm was added and contracts were extended to start a new suite of services in early 2024. These services are a direct response to the needs assessments that were conducted during 2022. Our ultimate goal is to see the residents of the Fair Oaks community thrive!

Another big milestone was the opening of an office in Guaynabo, Puerto Rico. In a full-circle moment we went back to the origin of Ser Familia and started using the successful and effective model of services we have developed, to benefit the residents of the island. This is also our first franchise, a goal established in our strategic plan that will continue to be developed in the future. Our presence in Puerto Rico will also allow for a project to alleviate the tremendous scarcity of Spanish-speaking mental health clinicians in Georgia.

The year 2023 also brought recognitions to our model including the one from the US Substance Abuse and Mental Health Services Administration (SAMHSA). We were one of the winners of their Behavioral Health Equity Challenge for our Outreach and Engagement Strategies for Underserved Racial and Ethnic Communities. We were also recognized by the American Public Health Association with the 2023 Latino Caucus' Outstanding Organization Award.

We are grateful to our loving God, all of the donors, sponsors, staff, volunteers, partners and board members who invest themselves in the wellbeing of our Latino children and families. The year 2024 will be truly historic with many impactful moments and milestones. We are counting on you to walk alongside us!

Sincerely,

Belisa Urbina

MISSION

To offer preventive family services and equip Latinos with the tools, resources and skills they need to move from crisis to thriving.

VISION

To see all Latino families flourishing and contributing to the wellbeing of their communities. To achieve this vision, we continually expand the breadth and depth of the services that we provide. We constantly research and develop programs and materials; identify and train new volunteers; organize and deliver new programs; reach new areas in the state; and empower other organizations to learn best practices to serve Latino youth, couples, parents and families as a whole.

RECOGNITION 2023

Senator Jon Ossoff did a Congressional Commendation for our founders Miguel and Belisa Urbina

Received the 2023 Outstanding Organization Award from the Latino Caucus of the American Public Health Association. The caucus highlighted our model of services and excellent record of exceptional service in the field of health promotion and disease prevention in Latino communities in Georgia.

Stats &

OUTCOMES 2023

134 sessions of the Healthy Relationships Program (domestic violence and crime victims support group). That is 25% more compared with 2022.

Served a total of 9,896 individuals, that is 21% more when compared to prior year

We served 20% more victims of crime compared with 2022. Almost 56% of those were domestic violence victims.

95% of the clients attended their counseling appointments on time

Positively impacted 1,517 children and youth, a record number for our organization

“Your Services Model is one-of-a-kind. I have never seen a similar approach in my 25+ years as a national program reviewer. Your method of providing services from the optic of the family while caring for each of the different family members as individuals, using a person-centered approach is nothing but amazing”.

– CARF (Commission on Accreditation of Rehabilitation Facilities) Auditor

We provided 72% more psychiatric services when compared to 2022.

35 Counties impacted

174 couples benefited from our programs to improve couples communication and functioning. That is 14 % more than the prior year

44.5% more households receiving Case Management services compared with prior year

We provided 41% more mental health counseling sessions when compared to 2022.

We certified 10 new Triple P (Positive Parenting Program) facilitators at a cost of over \$40,000

Of the people who report having suffered Domestic Violence in their adulthood, 2/3 of them indicated that they suffered physical and/or emotional abuse in their childhood.

Prepared the largest Health Fair of our history with 844 participants

Clients with moderately-severe depression had a 53% reduction in their symptoms contributing to a much better quality of life

78 adults completed the English as a Second Language basic course

Ser Familia, Inc. delivers its services using a unique holistic wraparound approach, which we call the Ser Familia Model. All services are provided to clients involving all family members, which yields the best possible outcomes for them and creates positive results which sustain themselves over time. After a client is referred to us we do an assessment of every family member in the household over the age of 12. Assessments are done using mainly evidence-based tools such as the Adverse Childhood Experience (ACE) test (which examines traumatic childhood experiences), the Basis24 questionnaire (which assess Depression/Functioning, Relationships, Self-Harm, Emotional Lability, Psychosis, and Substance Abuse), the Parenting Scale (a measure of parenting behavior and dysfunctional discipline) and others.

The results of these assessments combined with interviews with each family member allow our case managers to create, in partnership with each family, an Individual Family Plan. Each plan is unique and tailored to the family's needs and goals. The plan will include a suite of our services as well as connections to other community supports. Our mental health counseling services are always provided in combination with our group interventions (parenting classes, couple's programs, support groups, etc.). This model has been proven over 20 years of experience and research to yield the best and longest-lasting positive outcomes.

Each family has the support of a multidisciplinary team which, led by their case manager, might include a counselor, psychiatrist, parenting educator, couple's program facilitator, youth mentor, domestic violence advocate, immigration attorney, emergency assistance coordinator, educational tutor, and others. All of these professionals work in coordination using a single electronic file. Interventions might be brief (lasting a couple of weeks) or very lengthy (years) depending on the family's situation. Ser Familia's staff will walk with the family until we ensure that all family members are thriving and the family environment transforms into one in which every person can flourish.

75 kids and teens received free Piano and Art classes

We paid \$22,337.79 to provide transportation so that Ser Familia's clients can participate on programs and services

Our Seniors Group doubled the number of participants when compared to 2022

DEVELOPMENT & EXPANSION 2023

ACES

Ser Familia has been collecting Adverse Childhood Experiences (ACE) Questionnaires for more than 8 years and has one of the largest data sets on Latinos of this important assessment.

(<https://www.cdc.gov/violenceprevention/aces/index.html>)

ACEs are traumatic events that occur before a child reaches the age of 18. ACEs include all types of abuse and neglect, such as parental substance use, incarceration, and domestic violence. A landmark study in the 1990s found a significant relationship between the number of ACEs a person experienced and a variety of negative outcomes in adulthood, including poor physical (i.e. heart disease, cancer, etc.) and mental health, substance use, and risky behaviors. The more ACEs experienced, the greater the risk for these outcomes. The average ACEs score for a Ser Familia client now is 3.6 (adults) and 3.2 (minors) with domestic violence victims having an average score of 5. These numbers are very high when compared to the rest of the population. We started giving this questionnaire to our teen clients and have been amazed to see that they have a score similar to the one of crime victims (5+). This last fact is extraordinarily concerning because of the impact that these traumatic experiences will have on these youth's futures.

The average ACEs score for a Ser Familia client now is **3.6 (adults)** and **3.2 (minors)** with domestic violence victims having an average score of **5**.

Our

APPROACH

COUPLES

Couples Workshop:

Our program for couples offers each person the opportunity to gain a better understanding of themselves, to know their spouse or partner better, and to strengthen the couple's love and commitment. We want couples to recover confidence in each other and regain mutual respect.

A Nuestro Alcance (Within Our Reach):

Evidence-based curriculum developed by PREP, Inc. (based at the University of Denver, Colorado). PREP, Inc. is an organization that has been at the forefront of researching couples' relationships and developing couples and family curricula for over 30 years. The program has proved to be extremely effective in helping couples improve their communication and relationship.

"We appreciate your help. It was a very enriching workshop; it helped us clarify ideas and find some things that affect our relationship."

- Client who participated in our programs

"Thank you for all the support and all the services I have received. I want to make Triple P a lifestyle I can apply in every aspect of my life. Thanks for everything!!!"

- Client from Triple P

PARENTS

Triple P – Positive Parenting Program®:

Triple P is one of the most effective evidence-based parenting programs in the world. It gives parents simple and practical strategies to help them confidently manage their children's behavior, prevent developing problems, and build strong, healthy relationships. This program is facilitated on a group basis, based on recommendations from our Case Managers.

Parents also get individual coaching calls to work on the specific parenting challenges they are facing.

YOUTH

Renovacion Juvenil® - RJ:

Is designed to provide practical tools to Latino teenagers, between the ages of 13 and 18, so they can better communicate not only with their parents but also with other people in their family environment. The two-day workshop offers the young participants ideas on how to resist peer pressure, steer clear of drugs & alcohol, avoid gangs, and prevent premature pregnancies while helping them adapt to living in a multicultural environment.

Peer Support Groups:

Provide participating teens with a support system that will give them emotional support, life skills, decision-making assistance, guidance related to self-esteem, and social companionship. Many Latino teens feel isolated and are trapped between the social pressure to belong to their peer groups in school and maintaining their native culture and language. Peer support groups provide a safe environment for socio-emotional learning.

Educational Tutoring:

Helps Latino middle and high school students overcome academic challenges and leads them to independent learning and educational success. Through our C.A.F.E. Program, Ser Familia offers after-school tutoring and educational enrichment activities, with a focus on language arts, math, science, and social studies. Tutors provide homework assistance, academic enrichment, college and career readiness, and test preparation.

SPARCS:

Is a group intervention developed specifically to meet the needs of youth who have experienced a traumatic event and/or experience chronic stress. Over the course of 16 sessions, participants in SPARCS will learn and practice coping skills, self-regulation, and effective communication with others. Participants are given the space to talk about their traumatic experiences in the context of understanding how those experiences affect their thoughts, feelings, and behaviors in the present. This allows them to learn to recognize their emotions, what triggers or provokes those emotions and, in turn, learn techniques to control and/or redirect them.

“I learned a lot about relationships with family and how the things I say affect my mother”

- Participants from the SPARCS program

“I learned how to avoid doing more damage to myself when I’m down or in a bad place. How to calm down when stressed.”

- Participants from the SPARCS program

MENTAL HEALTH

Ser Familia offers individual counseling and psychiatric services for clients of all ages. We offer a range of behavioral and mental health therapies at no cost, aimed at improving self-esteem and relationships with others and dealing with life events. Our counselors take a client-centered approach—body, spirit, and mind, and use therapeutic interventions tailored to the client’s individual needs. We also offer Individual Play Therapy for children.

Our

APPROACH

DOMESTIC VIOLENCE

Georgia Latinos Against Domestic Violence

(GLADV) strives to bridge the gap between community service providers and victims of domestic violence and other crimes in the Georgia Latino community. Through this program, we provide the education and resources necessary to raise awareness and promote advocacy against domestic violence, and we host support groups for men and women, to help them process and overcome the traumas caused by an episode of violence in their lives.

Bi-monthly sessions

Hosted 6 meetings for domestic violence advocates and other community leaders on topics such as Suicide and Mental Health, Suicide Prevention, Preventing Child Abuse and Neglect, and Technology-Facilitated Abuse among others.

“Thanks to Ser Familia, I now have the necessary tools to apply it to my family.”

- Client from Couples Workshop

“It was an excellent workshop, and it helped me a lot; thank you for everything you do for the community. I am very grateful to all of you.”

- Client from Healthy Relationships

C.A.F.E. CENTER OF EMOTIONAL AND FAMILY ASSISTANCE

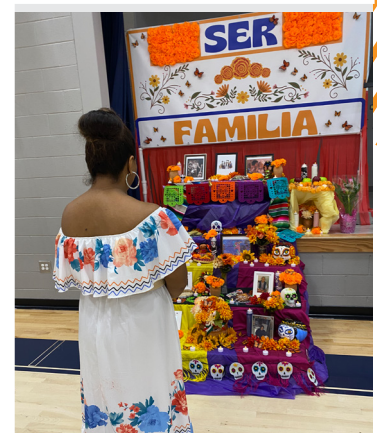

C.A.F.E. is a family resource center that was developed in conjunction with the Department of Family and Children Services (DFCS) to offer additional needed services to the Latino Community. The ultimate goal of the project is to reduce the number of Latino families who are referred to DFCS by providing them with the emotional and concrete

support they need. At the moment we have four locations, Smyrna, Norcross, College Park, and Lawrenceville.

EVENTS in 2023

SanSe Atlanta - July 23rd, 2023 – Over 1500 participants, headlined by Grupo Mania, DJ EU, and Atlanta Show Band Pleneros de Puerto Rico. Food, Drink, and Music festival celebrating Puerto Rico heritage.

Walking Among Us - October 14th, 2023 – Free Health Fair that also honors victims of domestic violence, Over 300 participants, free breast exams, free vaccines, and other health assessments.

Saborea Atlanta - October 21st, 2023 - Over 500 participants, fundraising for Ser Familia while indulging in delicious Latin food.

Latino Summit - November 16th, 2023 – Over 200 participants came together to discuss the current state of the Latino community and what steps to take to help the community.

Evelyn Burbano - Compliance Manager	Jingyi Ma - Staff Accountant	Yajaira Campomanes - Case Manager
Carlos Aguay - Community Engagement Specialist		

Those in bold are the Leadership Team

“Ser Familia’s model shows a deep understanding of the barriers for underserved racial and ethnic communities to accessing behavioral health care services. They have demonstrated an innovative approach to addressing these barriers and identifying clear measures of success. Strategies used reduce inequities in behavioral health care.” United States Substance Abuse and Mental Health Services Agency selected Ser Familia as one of the winners of their highly competitive Behavioral Health Equity Challenge

TOTAL EXPENSES

\$5,265,569

"It helped me value my wife more. To be happy with my life and what I have. Thank you very much, Ser Familia."

- Client from Relaciones Saludables

"Thank you for all the support and all the services I have received. I want to make Triple P a lifestyle I can apply in every aspect of my life. Thanks for everything!!!"

- Client from Triple P

"The workshop was a lot of learning and knowledge on parenthood. Both moderators did an impeccable job, making us feel comfortable and confident and being a solution, not a problem for our children. I am immensely grateful to the presenters for giving me the tools to improve as a mother and give my children a healthier, calmer life. Thank you, thank you, thank you."

- Client from Triple P

"I learned to recognize the stage my marriage is in and how to work to change the situation positively."

- Client from Taller de Parejas
